Présentation

DESCRIPTION

In this methodological class, we will work on different elements that can facilitate the preparation and the writing of a M2 thesis on theoretical or experimental linguistics.

We will cover some of the following subjects:

- The research environment in France
- Doing a PhD program in linguistics
- Formulating research questions and hypotheses
- Citing documents and plagiarism
- The scientific writing
- Some tools such as Zotero or Overleaf will be also presented during class.
- Conducting an experiment and applying for ethical approval within the PGSL-Ethics Committee, if required.
- Collecting data and performing analyses
